2018 Absolute 58 Fly

US $1,030,000

This 2018 Absolute 58 Fly has been carefully looked after by two full-time crew. She has been kept for the owner’s private use and has never been chartered. She berths in a prestigious marina in Hong Kong.

When you step on board the first thing you notice is her volume. Absolute designed her with large windows in the saloon, so the interior feels open and bright. The saloon offers comfortable space for a larger group of guests. When the doors are fully open, the galley opens through to the aft cockpit, which makes serving guests straightforward. Below, there are three guest cabins with en-suite heads, including a full-beam master cabin.

The flybridge has a hardtop, which is what most Hong Kong owners prefer in the tropical weather here. It also has an opening roof, the panels can be closed for shade or opened to allow natural light and airflow through the flybridge.

The engines are twin Volvo Penta D8 IPS 800s. Hours are currently 915, which is reasonable for her age. She is equipped with bow and stern thrusters and stabilisers, so she is easy to handle in the marina and comfortable at sea. The last lifting, anti-foul and oil change were recently conducted in April 2026.

SPECIFICATION
